

Filling hard capsules flexibly and efficiently - this is one of Lodha core competencies. Semi-automatic capsule filling machine is design with advanced features. This Outstanding capsule fillers boost production. Our capsule filling machine fills all capsule sizes with powder, granule, or pellets.

## Application:

Pharmaceuticals  
Food & Herbal  
Nutraceuticals  
Cosmetics  
Bio Technology

## Unique Features:

- Maximum hourly output increased to 35,000 capsules.
- Capsule polishing and sorting in real time.
- Capsules can get polished and sorted without the help of an operator.
- No need to manually separate empty capsules after loading, since this is done automatically.
- There is no additional power use.
- There is no need to keep empty capsules around to use later.
- After the loading ring has been rotated once, the loader will stop working automatically.
- All data from the PLC-controlled machinery is presented visually.
- Auger having four speeds to feed numerous varieties of powder & pellets.

### Information of Holes Per Ring: LSCF-35 & 45 Model

Size of Capsule	No of Holes in Loading Ring
Size 00 Capsule	480
Size 0 Capsule	600
Size 1,2,3,4 & 5 Capsule	720

### Information of Holes Per Ring: LSCF- 25 Model

Size of Capsule	No of Holes in Loading Ring
Size 00 Capsule	360
Size 0 Capsule	480
Size 1 & 2 Capsule	540
Size 3,4 & 5 Capsule	600

## Technical Specification

Model	LSCF-25	LSCF-35	LSCF-45
Production Output /hour	Up to 25,000	Up to 35,000	Up to 45,000
M.O.C. of Loading Ring M.O. C. of Lontact Parts	Magnesium Alloy Stainless Steel 316		
Number of Ring	Single		Double
Number of Holes	Size 00: 360 Size 0: 480 Size 1&2: 540 Size 3, 4 &5: 600	Size 00: 480 Size 0: 600 Size 1, 2: 720 Size 3,4 &5: 840	Size 00: 480 Size 0: 600 Size 1, 2, 3, 4 & 5: 720
Power Supply	3 Phase, 415 Volts, 50 Hertz		
Compressed Air	8 CFM
